

Setting up your Big Walk

Join Classic FM and get Back to nature!
Here's our simple guide to organising your own Big Walk this September.

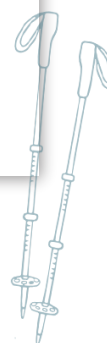

Choose your route

It could be your well-trodden favourite, or you might want to explore a new area and clock up the miles. You can find some inspiring routes across the country through the National Trust [HERE](#).

Get your walkers together

Whether you walk alone, bring your family together or recruit some good friends - anything goes!

Set a date

Classic FM's presenters are going to be taking on their walks on the first weekend of September. But you can hold your walk whenever you like throughout the month.

Raising money

Whether you get sponsorship from friends and family or donations from your fellow walkers - it all makes a huge difference to young lives across the country. Set up your fundraising page [HERE](#) so that you can share with everyone and keep track of what you have raised!

Get prepared

Before you get out there, make sure you have a look at the Countryside Code [HERE](#). Once you are up to date, get your walking *Schubert's* on and enjoy the big day.

Choose your walking music

If you're looking for a soundtrack to your walk, tune into Classic FM through Global Player, make your own playlist or even take inspiration from some of the walk-inspired classical music we have listed [HERE](#).

Tell us about your walk!

We would love to hear about your walk and share your story on air. Let us know what you've been up to by tagging **Make Some Noise** and [@ClassicFM](#) in your social post or email us at bigwalk@classicfm.com
